Project Title: SOCIAL THORY AND THE MORAL FOUNDATIONS OF DEVELOPMENT

Project description : The purpose of this endeavour is to critically examine the main tenets of the most accepted sociological theories and examine their parameters of their visions from the point of view of moral philosophy, in order to arrive to a better understanding of the nature and ethical demands of sustainable development, economic and cultural. It heavily relies on a more inclusive reading of phenomenology and the need for social scientists to examine the consequences of moderns physics visions of Energy for social action, in the horizon of present day ecological concerns.
